**The bidder is specifically advised that any person, for, or other party to whom it is proposed to award a subcontract under this contract must submit Certification as to Corporate Principal and Insurance in accordance with the following:**

- a. Approval of the proposed subcontract award cannot be given by the Owner unless and until the proposed subcontractor has provided the Certifications and/or other evidence showing that it has fully complied with any reporting requirements to which it is or was subject.**

7. **Liquidated Damages for Failure to Enter into Contract**

The successful bidder, upon his/her failure or refusal to execute and deliver the contract and bonds required within 10 days after she/he has received notice of the acceptance of his/her bid, shall forfeit to the Owner, as liquidated damages for such failure or refusal: the security deposited with his/her bid.

9. **Conditions of Work**

Each bidder must inform him/herself fully of the conditions relating to the construction of the project and the employment of labor thereon. Failure to do so will not relieve a successful bidder of his/her obligation to furnish all material and labor necessary to carry out the provisions of his/her contract. Insofar as possible the contractor, in

carrying out the work, must employ such methods or means as will not cause any interruption of or interference with the work of any other contractor.

**10. Addenda and Interpretation**

No interpretation of the meaning of the plans, specifications or other pre-bid documents will be made to any bidder orally without distribution of an addendum to the plan-holders.

Every request for such interpretation should be in writing addressed to Dean Dick Engineering, Inc., 100 W. Carolina Avenue, Unit B, Ruston, Louisiana 71270, and to be given consideration must be received at least six days prior to the date fixed for the opening of bids. Any and all such interpretations and any supplemental instructions will be in the form of written addenda to the specifications which, if issued, will be mailed by certified mail with return receipt requested to all prospective bidders (at the respective addresses furnished for such purposes), not later than 72 hours prior to the date fixed for the opening of bids. Failure of any bidder to receive any such addendum or interpretation shall not relieve such bidder from any obligation under his/her bid as submitted. All addenda so issued shall become part of the contract documents.

**11. Security for Faithful Performance**

Simultaneously with his/her delivery of the executed contract, the Contractor shall furnish a surety bond or bonds as security for faithful performance of this contract and for the payment of all persons performing labor on the project under this

The agent selling the bond must be currently licensed to do business in Louisiana.

This will be verified by the Owner.

**12. Power of Attorney**

Attorneys-in-fact who sign bid bonds or contract bonds must file with each bond a certified and effectively dated copy of their power of attorney.

**13. Notice of Special Conditions**

Attention is particularly called to those parts of the contract documents and specifications, which deal with the following:

- a. Inspection and testing of materials
- b. Insurance requirements
- c. State allowances

**14. Laws and Regulations**

The bidder's attention is directed to the fact that all applicable State laws, municipal ordinances, and the rules and regulations of all authorities having jurisdiction over construction of the project shall apply to the contract throughout, and they will be deemed to be included in the contract the same as though herein written out in full.

**15. Method of Award – Lowest Qualified Bidder**

If at the time these contracts are to be awarded, the lowest base bid of each submitted by a responsible bidder does not exceed the amount of funds then estimated by the Owner as available to finance the contract, the contract will be awarded on the base bid or base bid plus additive alternative in numerical order as applicable, at the Owner's prerogative. If the bids exceed available funding, the Owner may reject all bids or may award the contract on the base bid or deductive alternate by changing the plans as required and adjusting the contract accordingly, in order not to exceed the allotted amount. The contract price shall be adjusted using unit price bid for the various phases of work contemplated by decreasing the work specified as necessary to bring the low bid within the available funds. The Contractors are advised to carefully balance their bids.

**16. Obligation of Bidder**

**At the time of the opening of bids each bidder will be presumed to have inspected the site and to have read and to be thoroughly familiar with the plans and contract documents (including all addenda). The failure or omission of any bidder to examine any form, instrument or document in no way relieves any bidder from any obligation in respect of his/her bid.**

**17. Safety Standards and Accident Prevention**

**With respect to all work performed under this contract, the contractor shall:**

- a. Comply with the safety standards provisions of applicable laws, building and construction codes and the “Manual of Accident Prevention in Construction” published by the Associated General Contractors of America, the requirements of the Occupational Safety and Health Act of 1970 (Public Law 91-596), and the requirements of Title 29 of the Code of Federal Regulations, Section 1518 as published in the “Federal Register”, Volume 36, No. 75, Saturday, April 17, 1971.**
- b. Exercise every precaution at all time for the prevention of accidents and the protection of persons (including employees) and property.**

- c. Maintain at his/her office or other well known place at the job site, all articles necessary for giving first aid to the injured, and shall make standing arrangements for the immediate removal to a hospital or a doctor's care of persons (including all employees), who may be injured on the job site. In no case shall employees be permitted to work at a job site before the employer has made a standing arrangement for removal of injured persons to a hospital or doctor's care.**
